

Marine Science Summer Internships At MIT Sea Grant College Program

Interested in being a Marine Scientist? Take the career for a test drive during our 2011 Summer Internship at MIT Sea Grant.

Over the course of a six-week program, our interns will venture out into the field to perform ecological surveys (under the guidance of MIT Researchers).

You'll learn to problem-solve in the field, recognize many species of marine wildlife, and contribute your findings to a growing database of invasive species and water quality data used by environmental professionals worldwide.

The program is open to rising high school sophomores, juniors and seniors, and it will run for six weeks starting July 12th and ending August 20th. Interns will be paid \$9.25/hr. Interns will be responsible for securing their own transportation to and from the MIT campus.

How to Apply

The application form and instructions are available at <http://bluelobsterbowl.mit.edu>.

For full consideration, all application materials must be postmarked by April 30, 2011.

Questions about the program can be directed to:

Rachel VanCott (blb-internships@mit.edu)

2011 Marine Science Internship Application

Applicant must:

- Be a U.S. citizen or permanent resident (no exceptions).
- Be currently enrolled, full-time or part-time (at least half-time) in a degree granting program in high school.
- Be in good academic standing.
- Have a strong interest in, or currently be pursuing, studies in disciplines related to Ocean Science.
- Be at least 16 years old by program start date (July 12, 2011)

Note:

- Preference will be given to applicants who have participated in the Blue Lobster Bowl.

Student Information:

Name: _____ Birth date: _____
Street Address: _____
City: _____ State: _____ Zip Code: _____
Home Telephone: _____ Cell Phone: _____
High School: _____
Years of BLB Participation (list): _____
Grade: _____ Email: _____

Short Answer Questions:

1) In a brief statement, please describe why you are interested in this Summer Internship experience at the Massachusetts Institute of Technology. Include how this relates to your career goals and your interest in science. (Please limit the statement to 300 words or less.)

2) Please list and describe any relevant specialized training, apprenticeships, skills, and extra-curricular activities. (Please limit the statement to 300 words or less.)

Supporting Documents:

1. One letter of recommendation from a member of the science faculty at your high school. The letter should address your academic and research capabilities and potential, and should be enclosed in a sealed, signed envelope.
2. One official copy of your transcript.

Save this form and submit the application via e-mail to blb-internships@mit.edu.
Thank you!
